PETITION TO ACCEPT COLOR DRAWINGS/PHOTOGRAPHS

Sir:

1. This Petition is for the acceptance of color drawings/photographs.
2. Attached hereto are three (3) sets of color photographs on DIN size A4 sheets (21.0 by 29.7 cm) for examination, copying and archival purposes.
3. Please amend the specification by inserting the following language as the first paragraph of the specification beginning at Brief Description of the Figures (page 18 at line 11):

--The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee. --

4. Applicant asserts that the color found in the attached Figures is significant to the understanding of the invention. The necessity for the color drawings is to accurately represent the resolution and intensity of the bands of individual proteins separated on the polyacrylamide gel electrophoresis (PAGE), not fully rendered in the black-and-white version of Figure 3C, as noted by the Examiner in the Office Action of July 21, 2008 (see page 4, item 7 of the Office Action).

5. Please charge \$130.00 and any additional fees, if required, to Deposit Account No. 50-1407.
